SST

Silicone Stretched Tape

SMART SCAR CARE PAD
LEADING TO A SCARLESS WORLD

About SST

TENSION RELIEF

Relieve tension around incisions and wound to prevent the formation of hypertrophic scars (HS) before they start.

HYDRATION

The silicone gel lining can reduce transcutaneous evaporation water loss (TEWL) of skin and scar, helping to moisturize and soften the hypertrophic scars (HS).

CUSTOMIZABLE

Conforms to different body contours to evenly distribute pressure and tension relief.

Innovative Design

Effective Scar Healing

Comfort & Durability

Silicone Stretched Tape

Made of a thin sheet of **medical grade silicone gel** with a thin film of plastic lining, which is non toxic and non-hypersensitive to human skin. It is specially designed porous silicone tape with an elastic and stretchy property which can be used on newly healed wound.

Clinical Applications

SURGICAL SCARS

Scar prevention for linear surgical scar and caesarean section scar

HYPERTROPHIC SCARS

Provide circumferential pressure on finger scars

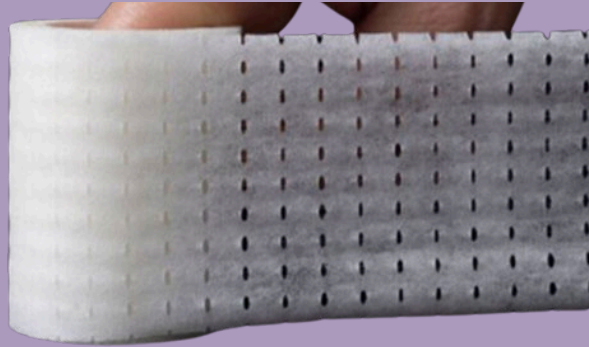

ODEMA CONTROL

Support inflamed joints
reduce fingers oedema
relief soft tissues
injuries

SST-A

Tape with pores
Size: Roll form 5 x 100cm

SST-B

Tape without pore
Size : Sheet form 4.5 x 15.5cm

Features

- ✔ Durable, easy to apply
- ✔ Good adhesive property
- ✔ 100% Medical Silicone Gel
- ✔ Non-toxic, non-allergic, non-irritable
- ✔ Scars Prevention
- ✔ Smoothen scar tissues
- ✔ Odema control on inflamed joints or soft tissues
